Program Instructor Experience:

Program Instructors must be over 18 with demonstrated ability to undertake each activity. Demonstrated ability includes previous experience instructing and supervising small groups in recreation activities and training by Camp Kianinny's Director / Training Team on the technical, safety and supervisory components of the activity.

This training occurs prior to the activity and if the group leader is deemed competent then they can instruct the activity. If the Camp Kianinny Director is not satisfied with the competence level they will observe and assist or instruct the activity until satisfied with the competence of the leader.

First Aid Qualified Instructors will carry a First Aid Kit for various activities along with First Aid Kits being positioned at various locations onsite.

Participants should be able to;

Safely participate and understand the safety and minimal impact issues associated with the activity.

Age Suitability:

No minimum age is specified. Children younger than 12 should be closely supervised. The activities should suit the ability of all participants.

Ratio:

Guideline: 1:12; one adult per 12 participants; at least two adults must be present for all activities; an Instructor and a school teacher. For activities with larger groups, an additional adult is required for each additional 12 participants. The Department of Education and Training specifies the ratios of:

Archery: 1:20 Canoeing 1:12; 2 Children under 2 require 1:5, 2 – 3 year olds 1:8, and 3 – 6 year olds 1:10.

Participant Experience:

No previous experience in the activity is required.

Program Instructor Responsibility:

Program Instructors will be Camp Kianinny Staff.

Program Instructors will have a demonstrated ability, and/or appropriate qualifications and experience and/or undertake in house training appropriate to the activity at Camp Kianinny.

Overall, the instructor is responsible for:

- Pre inspection of the tracks and equipment used in the activity.

- Collecting map/s, communications, phone numbers and first aid kits as part of activity equipment.
- Arranging or confirming first aid needs and identifying participants at risk e.g. asthma. It is expected that an attending Guest Group Leader will provide and administer any special medications required & the Guest Group Leader will hold the Duty of Care (DOC) for First Aid situations, with Kianinny staff able to assist if needed.
- Briefing participants about the nature and purpose of the activity, about potential hazards and appropriate safety procedures.
- Ensuring participants wear appropriate clothing & closed toed shoes.
- Ensuring minimal impact principles are used.
- Adhering to the Kianinny Sun Safety Policy; hats to be worn outdoors, sunscreen is advised.
- Following procedures in the Kianinny Emergency Response Plan, recording any incidents on the Incident Report Form, and reporting any incidents or hazards to the Camp Kianinny Director.

The Guest Group Leader is responsible for the behaviour and supervision of participants to, from and during the activity, and informing the instructor about medical conditions of participants which may arise during the activity.

Wet Weather Alternatives

Games are available, which include initiatives and team challenges, these are to be held either in the Bush Pavilion or the Lakeside Pavillion depending on the group size. Alternatively, we can facilitate other activities that are eligible to be run in wet weather.

Procedures in an Emergency

In the case of an emergency the activity will cease and the group will be moved from any possible danger. Steps detailed in the Kianinny Emergency Response Plan are to be implemented:

- Verify the report of an emergency is correct.
- Notify other staff and call 000 if required.
- Assess the danger and take evasive action.
- Act to ensure the safety of all.

For latest guidelines on outdoor activities, see:

<https://australianaas.org.au/>

RISK MATRIX AND EVALUATION

Table 1: The WHS Risk Matrix

(*SOURCE*: FORM140 | August 2023 | education.nsw.gov.au)

		CONSEQUENCE (Severity)				
LIKELIHOOD (Probability)		Insignificant 1	Minor 2	Moderate 3	Major 4	Critical 5
		No treatment required.	Injury/illness requiring first aid treatment only.	Injury/illness requiring hospitalisation on going treatment.	Life-threatening injury/illness or multiple hospitalisations.	Death or multiple life-threatening injuries.
Almost certain 5	Expected to occur in most circumstances.	MEDIUM 5	HIGH 10	EXTREME 15	EXTREME 20	EXTREME 25
Likely 4	High probability of occurring in most circumstances.	MEDIUM 4	MEDIUM 8	HIGH 12	EXTREME 16	EXTREME 20
Possible 3	Might occur occasionally.	LOW 3	MEDIUM 6	HIGH 9	HIGH 12	EXTREME 15
Unlikely 2	Could occur at some time, doubtful.	LOW 2	MEDIUM 4	MEDIUM 6	MEDIUM 8	HIGH 10
Rare 1	May occur but only in	LOW	LOW	LOW	MEDIUM	MEDIUM

		CONSEQUENCE (Severity)				
	exceptional circumstances.	1	2	3	4	5

Table 2: WHS Risk Evaluation

Risk level	Acceptability	Priority for action to control risk	Sign-Off Authority: Schools	Sign-Off Authority: Other workplace
Low 1-3	Acceptable	PROCEED while monitoring existing controls. Manage the exposure to the hazard using existing procedures in consultation with workers and respond to any changes.	School Principal or delegate	Immediate Supervisor or Workplace Manager
Medium 4-8	Tolerable	PROCEED with the activity and/or allow the hazard to persist only after identifying and implementing any additional controls reasonably practicable. Monitor all controls and manage the exposure to the hazard using existing procedures in consultation with workers and respond to any changes.	School Principal or delegate	Senior Manager or Director
High 9-14	Unacceptable	DO NOT PROCEED and/or allow the hazard to persist until all risks/hazards are identified and the most effective control methods are documented in a risk assessment. Seek support from the workplace manager and WHS Advisor or the Incident Report and Support Hotline.	Principal to sign off. Principal to talk to staff about eliminating or reducing the risk, and contact: <ul style="list-style-type: none"> Health, Safety & Staff Wellbeing Directorate for review Legal as required. 	Executive Director or delegate to talk to staff about eliminating or reducing the risk and contact: <ul style="list-style-type: none"> Health, Safety & Staff Wellbeing Directorate for review Legal as required.
Extreme 15+	Unacceptable	STOP IMMEDIATELY and contact your WHS Advisor or the Incident Report and Support Hotline to plan a coordinated response in consultation with key subject matter experts to eliminate or control exposure to the hazard.	Principal to advise staff about eliminating or reducing the risk, and contact: <ul style="list-style-type: none"> Director Educational Leadership for review Health, Safety & Staff Wellbeing Directorate for review 	Executive Director or delegate to advise staff about eliminating or reducing the risk, and contact: <ul style="list-style-type: none"> Health, Safety & Staff Wellbeing Directorate for review Legal as required.

Risk level	Acceptability	Priority for action to control risk	Sign-Off Authority: Schools	Sign-Off Authority: Other workplace
			<ul style="list-style-type: none"> Legal as required. 	

Table 3: Hierarchy of Controls

CONTROL	EFFECTIVENESS	DESCRIPTION	EXAMPLES
ELIMINATION	BEST	Eliminate the hazard entirely.	Eliminating the risk of a fall from height by doing the work at ground level.
SUBSTITUTION	VERY GOOD	Substitute the hazard with safer options.	Replacing hazardous cleaning chemicals with equivalent non-toxic products.
ISOLATION	GOOD	Isolate the hazard from causing harm.	Placing a barrier around an area of wet floor as a slipping hazard.
ENGINEERING	GOOD	Use engineering controls to reduce the risk.	Installing guards, rails, or handrails to prevent falls.

CONTROL	EFFECTIVENESS	DESCRIPTION	EXAMPLES
ADMINISTRATIVE	POOR	Administrate and document safe work practices.	Training workers in safe work procedures, Safe Operating Procedures.
PPE	WORST	Protect workers with Personal Protective Equipment (PPE).	Providing goggles and gloves to people handling hazardous chemicals.
